What we do

Ideas, Funding, People

Our Results

High Tech/Deep Tech

Smart Materials for Sustainable Construction

Neural Networks for Deep Learning and System Analysis

Adaptive Lighting for Enhanced Performance

Cloud to Edge Computing

Visual Data Computing Platforms

Advanced X-Ray Imaging

BROWN
TECHNOLOGY
INNOVATIONS

A growing portfolio of life science and high tech startups based on Brown technology

Life Sciences

Therapeutics for Neurogenesis

TX for Infectious Disease and Cancer

AI/ML Diagnostics for Pediatric Conditions

Cancer Therapeutics and Delivery Systems

Advanced approaches for Neurodegenerative Disease

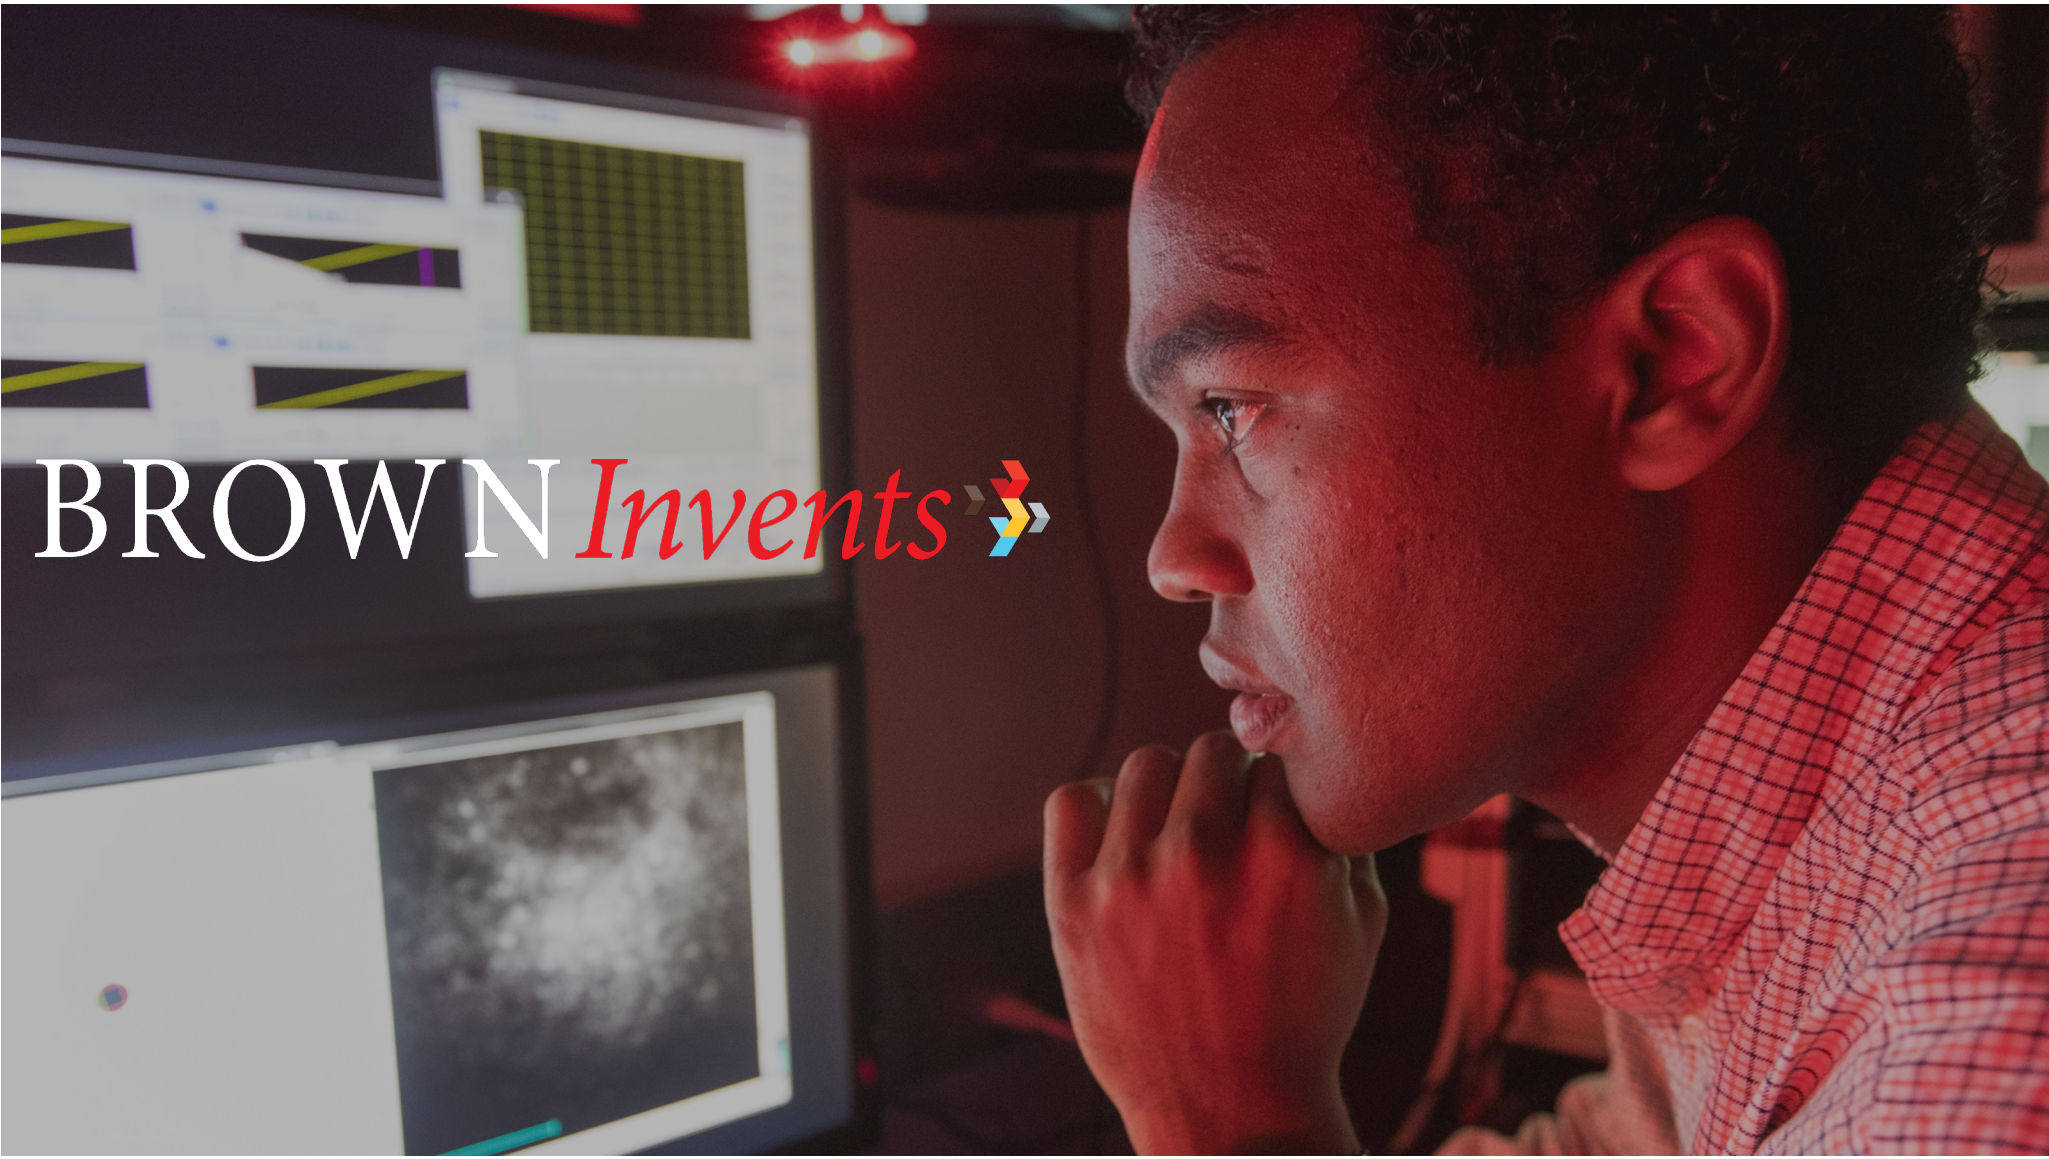

Regenerative Medicine Therapeutics

The Innovation & Design District: a home for high growth startups

- ▶ **Growing Brown's Impact by Investing in Research** – recruiting new faculty, supporting graduate students and postdocs in important research areas
- ▶ **Catalyzing public-private projects** – South Street Landing; expanding presence at Point 225; and state health laboratory building
- ▶ **Pursuing long term capital projects** – integrated life sciences building in the Innovation District
- ▶ **Needs** an Innovation District that is receptive to startup companies
 - ▶ Wet lab incubator for startups
 - ▶ Attractive ecosystem/environment for high growth businesses
