

**I-195 Redevelopment District  
Request for Proposals  
Snow Removal Services**

The I-195 Redevelopment District (the “District”) is requesting proposals from firms qualified to support the District’s requirement to provide snow removal services on and adjacent to property it owns within the City of Providence, specifically identified on the attached map (Attachment A).

**DISTRICT’S INTENT:**

The District, through this RFP process, intends to select a Contractor(s) which will perform snow removal activities.

The District encourages local Contractor(s) to submit proposals for the services described below. No preference is given to a proposal received from one firm performing the services or from a lead firm with subcontractors.

**PROPOSAL ELEMENTS:**

A map (Attachment A) identifies properties that are owned by the District and require maintenance for the 2021 season. A list of those properties and acreage (Attachment B) is provided for your use in developing pricing. The District is also responsible for the areas identified as park space (Parcels P2, P3, and P4).

In order to be considered responsive, proposals shall, at a minimum, address the following:

Sidewalk Snow Removal: Contractor(s) shall provide all labor and equipment necessary to remove snow from all sidewalks adjacent to District-owned parcels depicted on the attached map and within the Providence Innovation District Park (Parcels P2 and P4). Services shall be accomplished in order to comply with City Ordinance, Section 23-13. The Contractor(s) shall also provide a price to provide and apply sand to ice-encumbered sidewalks in order to comply with City Ordinance Section 23-13. Excerpts of the Ordinance provisions are included (Attachment C). The price quoted shall reflect price per event.

In addition, Contractor shall include a separate quote to provide a clear path on the Michael S. Van Leesten Memorial Bridge for snow removal only.

The Contractor may not dispose of snow from any source in the Providence River.

NOTE: The District’s responsibility will vary throughout the contract due to the sale and use of properties and the construction of the parks. Contractor(s) should state if they are willing to adjust pricing to reflect the reduction in effort for the period the property is inaccessible. If the Contractor(s) is willing to adjust their pricing, then its proposal should provide the method to determine the reduction amount.
